a. Description of the need for and the benefits of the proposed rule: Mississippi Code Sections 41-7-185 (g) requires the State Department of Health to develop a revised State Health Plan tri-annually. The FY 2011 revision will update all chapters with the most recent statistical data available and make revisions to certain criteria and standards.

b. Cost estimate to the agency and other state or local government entities: Printing and binding of the State Health Plan will cost approximately \$2,500 in FY 2011. Other state agencies are provided copies free of charge.

c. Estimate of the cost or economic benefit to all persons: The Department recoups this cost by charging \$50 per copy to health care providers and others. The State Health Plan is also available electronically

d. Analysis of the impact on small business: There will be no impact on small business.

e. Comparison of the costs and benefits of the proposed rule to the probable costs and benefits of not adopting the rule: The FY 2011 revision will update all chapters with the most recent statistical data available and make revisions to certain criteria and standards, specifically Acute Care Chapter and Other Health Services Chapter.

f. Determination as to whether less costly or less intrusive methods exist to achieve the purpose of the rule: The Department considered only publishing the FY 2011 State Health Plan electronically, but elected to continue traditional hardcopy publication due to demands of providers and other interested parties.

g. Description of reasonable alternative methods and reasons for rejection of the alternative methods: The Department considered only publishing the FY 2011 State Health Plan electronically, but elected to continue traditional hardcopy publication due to demands of providers and other interested parties.
